## Poster Guidelines

- The overall size of the poster shall be limited to 3' x 4' and the poster should be in portrait.
- Participants are free to choose the colour scheme that is appropriate to make the poster easy to read and comprehend for your nature of work.
- Poster Material: Preferably printed on a single sheet of flex or paper.
- Each poster should have the **Track Number** (T1/T2/T3/T4) and **Track Code** mentioned below the Amrita logo (Arial 100 Pts.) as indicated in the table below:
- The background color of the conference logo and the title can be edited to suit the color scheme of your poster.
- Ensure that the size of the logo (including aspect ratio) and the location of the track number on the logo are carefully aligned as indicated in this sample.
- The organization, flow and clarity of the information presented (selection of suitable font, font size, layout, etc.) will be considered towards presentation efficacy.
- Recommended layout: Two-column format, top-left to bottom-right reading order.
- Use sans-serif fonts (e.g., Arial, Helvetica): Title font: ≥ 80 pt, Headings: ≥ 48 pt, Body text: ≥ 36 pt, Figures/Legends: ≥ 24 pt

Thematic Area	Track Number	Track Code
Clean Energy	T1	CE
Materials and Process Design	T2	MPD
Polymers, Composites and Biomaterials	T3	PCB
Sustainability Resource Management	T4	SRM

- **Poster Content (General Structure):**
- **Title** (with Reference Number (Arial 80 pt)), **Author(s) & Affiliation(s)**, **Introduction / Objectives**, **Materials and Methods**, **Results and Discussion**, **Conclusion**, **Future Work / Recommendations**, **Acknowledgements**, **References** (minimal) .
- *Please note that this is only a guideline; you can use your creativity to make the poster as appealing as possible.*
